Small ball conference 2005

December 8, 2012; January 12, 2013.

Hi, Vlad,

That will be great! Here is my plan. I will arrive on June 9 (Sunday) and my wife will arrive on June 15 or so. I plan to depart on 25 (since there is a geometric functional analysis meeting this week and I want to attend part of the meeting). I need to fly from Delaware to Beijing on June 28 for an IMS-China meeting (June 30-July 4).

I would be happy to give a colloquium talk and also teach a short mini-course at the Chebyshev Lab during the week of June 17-21. The mini-course can be on Small Value Probability since I am writing lecture notes for a book.

Let us keep in touch.

See you in the summer.

Best, [Wenbo](#)
