

List of publications of Victor Toponogov

REFERENCES

- [1] A property of convexity of Riemannian manifolds of positive curvature (in Russian). Dokl. Akad. Nauk SSSR 115, 674-676 (1957). English translation: Transl., Ser. 2, Am. Math. Soc. 37, 283-285 (1964).
- [2] Riemannian spaces having their curvature bounded below by a positive number (in Russian). Dokl. Akad. Nauk SSSR 120, 719-721 (1958).
- [3] Evaluation of the length of a closed geodesic on a convex surface (in Russian). Dokl. Akad. Nauk SSSR 124, 282-284 (1959).
- [4] Riemannian spaces which contain straight lines (in Russian). Dokl. Akad. Nauk SSSR 127, 977-979 (1959). English translation: Transl., Ser. 2, Am. Math. Soc. 37, 287-290 (1964).
- [5] Riemannian spaces having their curvature bounded below by a positive number (in Russian). Usp. Mat. Nauk 14, No. 1, 87-130 (1959). English translation: Transl., Ser. 2, Am. Math. Soc. 37, 291-336 (1964).
- [6] Dependence between curvature and topological structure of Riemann spaces of even dimension (in Russian). Dokl. Akad. Nauk SSSR 133, 1031-1033 (1960). English translation: Sov. Math., Dokl. 1, 943-945 (1960).
- [7] Estimation of the length of a convex curve on a two-dimensional surface (in Russian). Sib. Mat. Zh. 4, 1189-1193 (1963).
- [8] The metric structure of Riemannian spaces with nonnegative curvature which contain straight lines (in Russian). Sib. Mat. Zh. 5, 1358-1369 (1964). English translation: Am. Math. Soc., Transl., II. Ser. 70, 225-239 (1968).
- [9] Estimate of the length of a closed geodesic in a compact Riemann space of positive curvature (in Russian). Dokl. Akad. Nauk SSSR 154, 1047-1049 (1964). English translation in: Sov. Math., Dokl. 5, 251-254 (1964).
- [10] Some extremal theorems of Riemannian geometry (in Russian). Sib. Mat. Zh. 8, 1079-1103 (1967).
- [11] Extremal theorems for Riemannian spaces of curvature bounded from above (in Russian). Dokl. Akad. Nauk SSSR 184, 300-302 (1969). English translation: Sov. Math., Dokl. 10, 88-90 (1969).
- [12] An isoperimetric inequality for surfaces whose Gaussian curvature is bounded above (in Russian). Sib. Mat. Zh. 10, 144-157 (1969).
- [13] Theorems on shortest arcs in noncompact Riemannian spaces of positive curvature (in Russian). Dokl. Akad. Nauk SSSR 191, 537-539 (1970). English translation: Sov. Math., Dokl. 11, 412-414 (1970).
- [14] A characteristic property of a four-dimensional symmetric space of rank I (in Russian). Sib. Mat. Zh. 13, 884-902 (1972). English translation: Sib. Math. J. 13, 616-628 (1973).
- [15] On three-dimensional Riemannian spaces with curvature bounded above (in Russian). Mat. Zametki 13, 881-887 (1973). English translation: Math. Notes 13, 526-530 (1973). (With Yu.D. Burago.)
- [16] Extremal theorems for Riemann spaces with curvature bounded above. I (in Russian). Sib. Mat. Zh. 15, 1348-1371 (1974). English translation: Sib. Math. J. 15(1974), 954-971 (1975).
- [17] Riemannian spaces of diameter π (in Russian). Sib. Mat. Zh. 16, 124-131 (1975). English translation: Sib. Math. J. 16, 99-105 (1975).
- [18] A simple model of branched-chain chemical reaction describing oscillating process (in Russian). Letters to kinetics and burning. 25, No. 3-4, 301-304 (1984). (With V.I. Babushka and V.M. Gol'dshtejn.)
- [19] Extreme case of the comparison theorem of the angles of a triangle (in Russian). Sib. Mat. Zh. 26, No. 1, 206-209 (1985). (With A.I. Vedenyapin and E.D. Mazaev.)
- [20] Open manifolds of nonnegative Ricci curvature with rapidly growing volume (in Russian). Sib. Mat. Zh. 26, No. 4, 191-194 (1985). (With V.B. Marenich.)
- [21] Comparison theorem of angles of a triangle for a class of Riemannian manifolds (in Russian). Trudy inst. Mat. 9, 16-25 (1987). (With S.A. Akbarov.)
- [22] A geometric characterization of the complex projective space (in Russian). Geometry and topology of homogeneous spaces, interuniv. Collect., Barnaul, 98-104 (1988). (With V.Yu. Rovenskij.)
- [23] The effectiveness of nonstationary control for a class of catalytic reactions (in Russian). in the book: Zamaraev, K. I. (ed.) et al., Mathematical problems in chemical kinetics. Novosibirsk: Nauka. P. 319-331 (1989). (With I.A. Zolotarskij.)

- [24] Open manifolds of nonnegative curvature (in Russian). *Itogi Nauki Tekh., Ser. Probl. Geom.* 21, 67-91 (1989). English translation: *J. Sov. Math.* 55, No. 6, 2115-2130 (1991). (With V.B. Marenich.)
- [25] A condition sufficient for nonexistence of a cycle in a two-dimensional system quadratic in one of the variables (in Russian). *Sib. Mat. Zh.* 34, No. 2, 170-172 (1993). English translation: *Sib. Math. J.* 34, No. 2, 350-352 (1993).
- [26] Surfaces of generalized constant width (in Russian). *Sib. Mat. Zh.* 34, No. 3, 179-189 (1993). English translation: *Sib. Math. J.* 34, No. 3, 555-565 (1993).
- [27] A uniqueness theorem for a surface with principal curvatures connected by the relation $(1 - k_1 d)(1 - k_2 d) = -1$ (in Russian). *Sib. Mat. Zh.* 34, No. 4, 197-199 (1993). English translation: *Sib. Math. J.* 34, No. 4, 767-769 (1993).
- [28] Cylinder theorems for convex hypersurfaces (in Russian). *Sib. Mat. Zh.* 35, No. 4, 915-918 (1994). English translation: *Sib. Math. J.* 35, No. 4, 815-817 (1994).
- [29] On conditions for existence of umbilical points on a convex surface (in Russian). *Sib. Mat. Zh.* 36, No. 4, 903-910 (1995). English translation: *Sib. Math. J.* 36, No. 4, 780-786 (1995).
- [30] On conditions for existence of periodic solutions to a system of differential equations given integral characteristics (in Russian). *Sib. Mat. Zh.* 36, No. 5, 1157-1166 (1995). English translation: *Sib. Math. J.* 36, No. 5, 999-1008 (1995).
- [31] A uniqueness theorem for convex surfaces with no umbilical points and interrelated principal curvatures (in Russian). *Sib. Mat. Zh.* 37, No. 5, 1176-1180 (1996). English translation: *Sib. Math. J.* 37, No. 5, 1037-1040 (1996).
- [32] The Cheeger-Gromoll theorem for a class of open Riemannian manifolds of nonnegative curvature in the integral sense (in Russian). *Sib. Mat. Zh.* 38, No. 1, 208-216 (1997). English translation: *Sib. Math. J.* 38, No. 1, 179-185 (1997).
- [33] Great sphere foliations and manifolds with curvature bounded from above. Appendix A in the book: V. Rovenskii. *Foliations on Riemannian manifolds and submanifolds.* Boston: Birkhauser. P. 218-234. (1998). (With V. Rovenskii.)
- [34] *Differential geometry of curves and surfaces. A concise guide.* Basel: Birkhauser (ISBN 0-8176-4384-2/pbk). 206 p. (2005).
- [35] *Differential geometry of curves and surfaces. A concise guide.* (Russian) Moscow: Fizmatlit (ISBN 978-5-89155-213-5/hbk). 223 p. (2012).
