

Annual International Conference “Days on Diffraction-2013”

St. Petersburg, Russia, May 27 – May 31, 2013

<http://www.pdmi.ras.ru/~dd/>

Workshop on Metamaterials, 1st call for papers

Contributions on the wave phenomena in metamaterials are welcome. Original and review papers related to electromagnetics of
left-handed and hyperbolic media
plasmonic nanostructures
electromagnetic and photonics crystals
high-impedance surfaces

or any other artificial structures with electromagnetic properties that cannot be found among natural materials are of the special interest. The papers are expected to be focused on the theoretical studies or numerical modeling, rather than on experimental investigations and industrial applications, but the latter are also welcome.

Organizer of the workshop:

Dr. Pavel Belov, National Research University ITMO, Russia

The event is supported by Virtual Institute for Artificial Electromagnetic Materials and Metamaterials

“Metamorphose VI” <http://www.metamorphose-vi.org>

The abstracts for the Workshop on Metamaterials limited, if possible, by one A4 page of 10pt font size have to be submitted via online system <http://www.pdmi.ras.ru/~dd/submission.php> before

March 8, 2013. Both LaTeX and Word file formats are accepted.
